

I am a Christian and K-LOVE provides uplifting music without the background of violence and sex, it is appropriate for anyone to listen to. It would be considered an act of deliberate assault on the way of life of many people, it is the only station in my area that provides the message and style of music I want to listen to. We have enough Rap, Hard Rock, Metal, Country, and new wave pop music along with their lyrics about all things sexual, drunkenness, and violence. K-Love is a fresh breath about Love and the relationship we have with our God and Savior, it is important that it be allowed to continue in operation in our area. Thank You Stephen E Brown
